MAC Tac get onboard with Ocean Addict

MACtac, world leader in the manufacturing of self adhesive film, had joined the trimaran Ocean Addict with a new technical partnership. The MACtac adhesives can be used for visuals communications, decorations, packing industry and labeling.

The "MACtac TuningFilm" range carry over 45 declinations with refreshing colors like "Flash Orange; Red Spicy, Green Apple), some iridescent effects, carbons or polished... finish impossible to create with traditional paints.

The racing trimaran have been embellished with the "TuningFilms " Sublime Rouge Brillant / Bright Red (TF 759-00 and TuningFilms Noir Carbone / Black Carbon for a re-looking full of character!

"We almost have the impression to be in front a new boat, the "Tuningfilm" presents an incredible rendering and finish. Many people approached me to ask if I didn't have a hard time to do such a paint job outdoor. When I explained them we have applied the "Tuningfilm", they take another look, amazed!"

Soon Ocean Addict will be back in her element

After several weeks of works realized outdoor, the trimaran Ocean Addict will finally be back in her element, the sea and her home port, Loctudy.

Our partners

It took a few weeks, despite a capricious weather (snow, wind, subzero temperatures...) for the Ocean Addict's team to carry out the numerous work necessary for a successful 2013 season. It was a true makeover: *replacing the main sail traveler track, cleaning, new non skid paint, replacing all pieces showing signs of wears and decoration with the MACTac TuningFilm.*

Soon back to navigation

The next weeks will have the same intensity, with the boat launch, it will be time to fine tune her, install the new sails and perform the sea trials. Then Ocean Addict will head to Douarnenez to compete the 4th and 5th of May in the Grand Prix Guyader of Douarnenez which will mark the opening of the 2013 season, and the come back of beautiful navigations aboard a multihulls.

Don't forget, Eric offers you to join him aboard Ocean Addict!
